

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am a 29yr old woman & I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

Please leave the current rules in effect.

I find it hard to believe that fcc commissions is even contemplating the idea of allowing cell phone use on airplanes...Do u not remember what happened on Sept 11th!!!I personally would not feel safe with the idea of cell phones being used on airplanes....Reasons being: It might interfere with the navigation equipment & also easier access to hijackers/terrorists.....The country is still trying to recover from what happened on that horrific day in New York. If you think cell phone use could help in a possible hijacking situation--then u should only allow access for the pilots/undercover security on the flights....Personal cell phone use is a really bad idea & I really hope that you consider what opinions I have voiced in this matter.

Sincerely,

April Guerrera
